

MONKEY BUSINESS

The Spirit of God made me; the breath of the Almighty gives me life.
Job 33:4

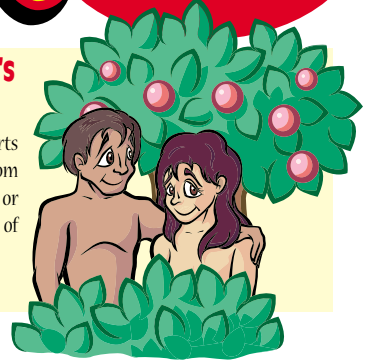

HOW DID WE GET HERE?

Genesis chapters 1 and 2 tell us that God created Adam in God's own image, and that Eve was then created from Adam.

Those who believe this believe it by FAITH, believing that most of the evidence in the world around us supports what the Bible says. But some people DON'T believe the Bible. Instead of believing the Bible, these people, whom we call "Darwinists," believe BY FAITH that we all got here by a long, complicated process called EVOLUTION or NATURAL SELECTION. They believe that all the creatures in the world, including people, got here by a series of accidents and birth defects called MUTATIONS. A guy named Charles Darwin made this idea popular in 1859.

What do Darwinists believe? Check it out!

WEIRD SCIENCE...

Here's a summary of what Darwinists believe about how we all got here.

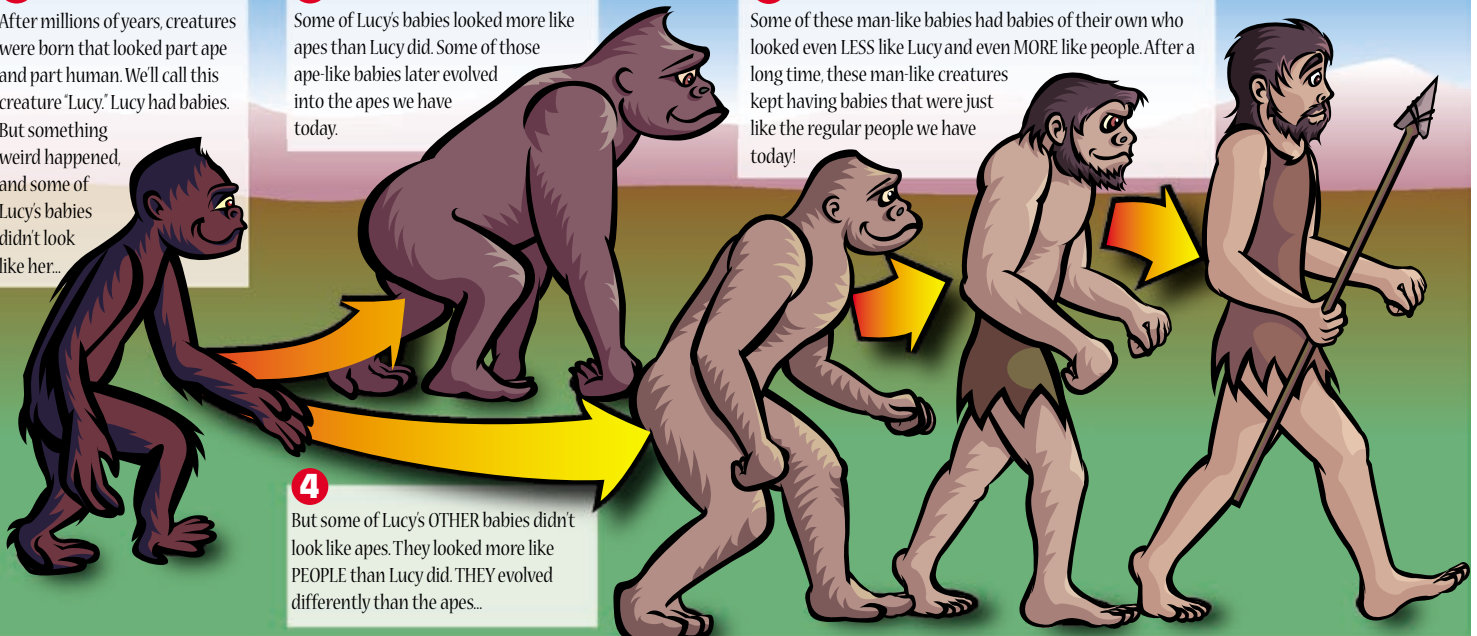

1 Darwinists believe that millions of years ago, there were pools of gooey special ingredients. Somehow, these ingredients mixed together and became tiny living things. After a long time, some of these living things had babies that were like fish. A long time later, some of those fish had babies that were like lizards. Those lizards had babies too, but some of those babies didn't look like lizards.

2 After millions of years, creatures were born that looked part ape and part human. We'll call this creature 'Lucy.' Lucy had babies. But something weird happened, and some of Lucy's babies didn't look like her...

3 Some of Lucy's babies looked more like apes than Lucy did. Some of those ape-like babies later evolved into the apes we have today.

5 Some of these man-like babies had babies of their own who looked even LESS like Lucy and even MORE like people. After a long time, these man-like creatures kept having babies that were just like the regular people we have today!

4 But some of Lucy's OTHER babies didn't look like apes. They looked more like PEOPLE than Lucy did. THEY evolved differently than the apes...

FACT OR FICTION?

One day, someone will try to tell you that this is what actually happened. The trouble is, this theory has problems—lots of them!

- Darwinism has not been proven through the Scientific Method.

- This kind of evolution (where one creature evolves into a more complex creature) has not been observed.
- There is not enough evidence to be able to say that Darwinism is a fact.

- Darwinism is so unlikely that it's basically impossible.
- Many Darwinists don't want you to question their theory. Why not? If it were true, couldn't it stand up to challenges?

GOD MADE YOU SPECIAL!

Just because people try to teach you that you're just the end result of millions of years of evolution doesn't mean you have to believe it, because no matter what they say, science cannot prove Darwinism and cannot disprove the Bible. God made you special! See for yourself what the Bible says!
